HELP PREVENT HEART ATTACK WITH A STROKE.

The back stroke. The crawl. The butterfly. It doesn't matter which you choose, as long as you do it up to 40 minutes, 3 to 4 times a week. Or try cycling or jogging. Any type of aerobic exercise program can help reduce your risk of heart attack and stroke. The only hard part is diving in. To learn more, contact the American Heart Association, 7272 Greenville Avenue, Box 47, Dallas, TX 75231-4596.

*You can help prevent heart disease and stroke.
We can tell you how.*
